

COLD HARTED
OFFICIAL ELECTRONIC PRESS KIT / 2026

NO FILTER. NO APOLOGY.

INDEPENDENT ALT-METAL / TOXROCK RECORDS

THE PROJECT

Cold Harted is the independent, AI-assisted alt-metal studio project created by Kade Cross and released through ToxRock Records. Built in Michigan, the project combines alternative-metal weight, industrial rap-rock pressure, electric metal mandolin, and modern violin. The writing confronts addiction, toxic relationships, grief, rage, and suicide without turning pain into decoration.

THE MISSION

Created by an Army combat veteran and built from nine years of sobriety. The mission is direct: quality creates reach, and reach gives the music a chance to find somebody who needs it.

PRIORITY MUSIC
